High-quality professional pickups for a

Made for Outstanding Sound Reproduction

Since developing the **STAT** pickup for bowed stringed instruments in 1986, Schertler has established a worldwide reputation for achieving the highest levels of accuracy in reproducing acoustic stringed instrument sound in an amplified environment.

Over the last 30 years, the company has continued to produce high-quality pickups including the **DYN** series. First released in 1994 and

tonal characteristics of a variety of instruments. For fretted instrument players, Schertler has combined external pickups with specialist build-in solutions like the **LYDIA** under-saddle systems and the **RESOCOIL** electrodynamic sensor. More recent releases include the **Magnetico AG6** pickup.

Schertler's universal **BASiK** pickup offers a cost-effective solution for use with stringed, percussive or ethnic instruments. Schertler pickups can be

■ Schertler's fretted instrument pickups combine state-of-the-art technology with high-end electronics to deliver impressive sound across the full range of each instrument.

DYN G P48
Suitable for solo and orchestral use, the DYN G P48 is an active, dynamic pickup that is precisely matched to the guitar's tonal characteristics, enabling amazing results to be achieved with minimal adjustment. Includes torsion-resistant cable with balanced XLR connector.

DYN G P48

■ **RESOCOIL**
Delivering a warm, natural sound, RESOCOIL is for players who need a fixed solution for their instrument. Suitable for classical guitar, mandolin family instruments, ukelele and resonator guitars.

■ **MAGNETICO AG6**
An affordable acoustic guitar pickup combining high-end electronics with active multiple coil technology for a rich, full sound. Use together with the S-MIC-M condenser, or DYN-AG6 dynamic microphone for additional warmth and enhanced quality.

■ **LYDIA**
LYDIA under-saddle systems feature revolutionary air chamber technology, a solid diaphragm and integrated electronic settings, resulting in impressive sound with an enhanced dynamic.
LYDIA VOLUME
LYDIA EQ
LYDIA OB
DUAL ONBOARD LYDIA in combination with the RESOCOIL pickup.

■ **STAT MACC**
Designed for Maccaferri-Selmer guitars and based on LYDIA technology, STAT MACC delivers a natural, high fidelity sound. Easy to apply and remove, it is also packaged with the YELLOW SINGLE (STAT MACC PRO), and YELLOW BLENDER (STAT MACC ROAD) preamps.

■ **STAT series electrostatic bridge-mounted pickups** are specially designed for louder musical environments, or amplified performance situations, where they have proved highly resistant to feedback. Available for Violin/Viola, Cello and Double Bass, the different models are also packaged with various preamp options.

■ **STAT ROAD**
Includes the pickup, cable, putty and **YELLOW BLENDER** preamp, offering additional parameter control (gain, EQ etc) and input options.

■ **STAT SET**
Includes the pickup, cable, putty and **STAT-PRE** preamp with volume control.

■ **STAT PRO**
Includes the pickup, cable, putty and **YELLOW SINGLE** preamp, offering additional parameter control (gain, EQ etc).

■ **DYN P48**

Designed for use in a moderately loud environment, **DYN P48** pickups are fully balanced, active dynamic contact microphones that have been precisely matched to the frequency range and tonal characteristics of their intended instrument(s). This enables amazing sound results to be achieved with minimal adjustment. Includes torsion-resistant cable with balanced XLR connector.
